

Cotton On & Cotton On Kids - Century City

Los Angeles, CA

OWNER	Michael Idzepski
ARCHITECT	Sargenti Architects
YEAR COMPLETED	2017
OFFICE	Los Angeles

Build Group's involvement in the complete fit-out of Cotton On stores extended to constructing ceilings and bulkhead walls with feature niches; joinery for sales counters; laying floor coverings; wallpapering and painting; electrical works and plumbing services. Client-procured fixtures and fittings were assembled on-site and installed.

All signage installation was also coordinated on behalf of the Client. A 'white glove' clean handover to the Client was achieved, allowing the stores to be stocked and trade to commence immediately.
