25,000

MARKET SECTOR

Corporate Interiors

An intricate office build-out that required a fast-track schedule, Build Group turned this project around on time and with great care. The two-story, 25,000 SF structure includes interior glazing and storefront for approximately 40 new office spaces. We upgraded the bathrooms, built new kitchens and breakrooms, and finished it off with a classroom-style presentation room that includes an operable hanging partition.
