6,500

MARKET SECTOR

Retail

The San Francisco flagship store is the seventh and largest of the John Varvatos stores and features two floors of sophisticated interiors that showcase the casual to formal menswear attire. Solid walnut floors are throughout this design / build project.

The construction team coordinated with architects on both the East and West coasts to meet a very aggressive schedule. In addition to the remodel of the interior space, the team also completed a full seismic upgrade on the building.
