

San Francisco Giants Security Improvements at Oracle Park

SAN FRANCISCO, CA

OWNER

SF Giants

COST

\$2,000,000

DURATION

3 Weeks

MARKET SECTOR

Civic / Public Work

Due to the changing nature of threats to heavily populated public venues, there has been a need for increased security and protection. The San Francisco Giant's Baseball Organization contracted Build Group to install 400, rated security bollards around the entire perimeter of Oracle Park. These American-made, steel, anti-vehicle bollards include a 5'x7' welded steel foundation installed beneath the existing sidewalk. During design development with the manufacturer, Build Group coordinated installation that worked around existing utilities to ensure a uniform and consistent perimeter could be maintained.
