**OWNER**

Phase 3 Real Estate Partners

**ARCHITECT**

McFarlane Architects

**COST**

\$1,092,358

**DURATION**

3 Months

**MARKET SECTOR**

Life Science

This project required critical timing and care by the Build Group team, as we sealed off an area of the lab for containment while working around sensitive equipment. Scorpion is located on the 3rd floor of the Genesis Tower life science campus, and we upgraded their office and lab spaces. This work included new architectural and lab casework, new partitions, and the design and construction of new MEPS systems.
