Barry's Boot Camp - Marina

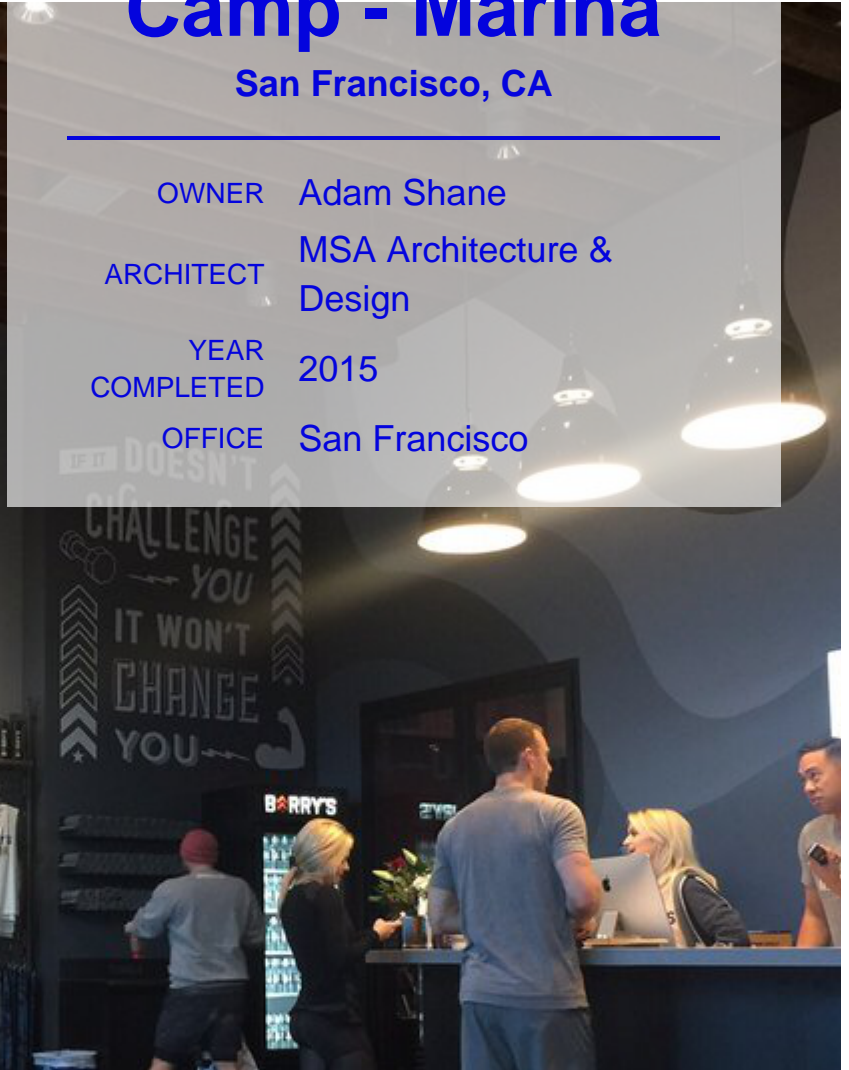

San Francisco, CA

OWNER Adam Shane

ARCHITECT MSA Architecture & Design

YEAR COMPLETED 2015

OFFICE San Francisco

Barry's Bootcamp is a growing international Fitness Center with two locations found in San Francisco. This second San Francisco location is located in the Marina District and is the largest Barry's Bootcamp built in the nation. This prestigious gym features an acoustically isolated fitness studio built with state of the art technology and surrounded by high-end amenities. The project team resolved complicated issues with the structural renovation, and utility upgrades, while maintaining clear and concise communication between the owner and architect.
