
Children's Hospital - Robotic Pharmacy

Oakland, CA

OWNER	Children's Hospital Oakland Research
ARCHITECT	Perkins Eastman
YEAR COMPLETED	2006
OFFICE	San Francisco

This was a three phase project which included build-out of a new pharmacy / lab area and a new medication dispensing area using robotics. The work was performed in the occupied hospital under OSHPD jurisdiction.

Our services included preconstruction planning and logistics. Included was construction scheduling, shutdown sequencing and planning, quality control, cost control, and construction oversight.
